Continuation Sheet (PTO-303)

Advisory Action

1. On cursory consideration, the request for reconsideration and the proposed amendment, which has not been entered, does not clearly appear to overcome the rejections of claims 29-32.

The Examiner has given full consideration of the amendment filed on January 31, 2005 after Final Office Action of December 1, 2004. However, the proposed added limitation(s) in claim 29 would require further consideration and/or search. Furthermore, the amendment presents additional claims, i.e., claims 35 and 36, without canceling finally rejected corresponding number of claims as set forth in 37 CFR § 1.116 and § 41.33(a). Therefore, the amendment does not place the whole application in condition for allowance.

In addition, there is no convincing showing under 37 CFR 1.116(b) why the proposed amendment is necessary and was not earlier presented.

2. Claims 1-28, 33 and 34 would be allowable if applicants submitted a timely filed amendment by canceling the non-allowable claims.

Response to Arguments

3. Applicants' arguments filed on January 31, 2005 have been fully considered but they are not persuasive.

With respect to claims 21-28 and 34, applicants' argument is considered moot in view of the indicated allowability of claims 21-28 and 34 as set forth in Paragraph 2 above.

With respect to claims 35 and 36 applicants' argument is moot because the argument is based on the proposed new claim that was not part of the rejected claim and which has not been entered. Further in response to applicants' argument that "claim 35 is claim 25 rewritten in

Art Unit: 2823

independent form and claim 36 is identical to claim 26...," it is respectfully submitted that claims 26 and 36 are not identical. If the claims were identical, claim 36 would have violated the rule as set forth under 37 CFR § 1.75(b).

With respect to claims 29-32 applicants' argument is not persuasive because claims 29 and 30 as amended would have been rejected by the combination of Hirari and Kian et al., as applied for claims 21-24, 27, 28, 31, 32 and 34 in the Office action of December 1, 2004 that would have resulted new ground of rejection for those claims. Furthermore, the allowable subject matter (i.e., pattering the semiconductor solution-processed thin film active region and the dielectric solution-processed thin film isolation via laser ablation) that incorporated into claim 21 by the way of amendment of January 31, 2005 is not contained in claims 29-32.
